

SSAB AB ser. A (SSAB-A.ST)

SSAB AB (publ) produces and sells steel products in Sweden, Finland, Rest of Europe, the United States, and internationally. It operates through five segments: SSAB Special Steels, SSAB Europe, SSAB Americas, Tibnor, and Ruukki Construction. The SSAB Special Steels segment offers quenched and tempered steels, and advanced high-strength steel products. The SSAB Europe segment provides strip, heavy plate, and tubular products. The SSAB Americas segment sells heavy plates for steel and plate production. The Tibnor segment distributes a range of steel and non-ferrous metals in the Nordics and Baltics. The Ruukki Construction segment produces and sells energy-efficient building and construction solutions. The company markets its steel products under the Strenx, Hardox, Docol, GreenCoat, Toolox, Armox, Duroxite, SSAB Boron, SSAB Domex, SSAB Form, SSAB Laser, SSAB Weathering, Cor-Ten, and SSAB Multisteel brands. Its products are used by customers in the heavy transport, building construction and infrastructure, industrial applications, construction machinery, energy, and material handling markets. SSAB AB (publ) was founded in 1878 and is headquartered in Stockholm, Sweden.
